

Len F. – Educator

Because I am a retired teacher and have been for a more than 10 years, we have to watch our funds carefully. And so we checked at the time of my retirement to make sure that California Casualty would be the most favorable for us.

And they continued to be and so now even in retirement we are very satisfied not only with service but with costs.

It saved us thousands of dollars over the years all 47 of them.

My wife and I have been customers with California Casualty for 47 years because they've given us 47 years of satisfied service.

And when you're happy with your coverage and the personnel with whom you deal you stay with that company and that's what we did 47 years worth.
